

# Fisheries

## Section I: Fisheries

1. **Danger at sea: Our changing ocean - the cause of change** (Seaweb: <http://www.seaweb.org/campaigns/danger/causes.html>, Aug. 6, 1999)
2. **Danger at sea: our changing ocean - signs of trouble** (Seaweb: <http://www.seaweb.org/campaigns/danger/causes.html>, Aug. 6, 1999)
3. **Oceans and marine life at NRDC: Fish facts** (National Resource Defense Council: <http://www.nrdc.org/wildlife/fish/ffishf.asp>, Aug. 6, 1999)
4. **FAO Fisheries Department: Fishery facts** (Food and Agriculture Organization: <http://www.fao.org/WAICENT/FAOINFO/FISHERY/fifacts/newfact.asp>, Jan. 6, 1999)
5. **FAO factfile: Total fish production** (Food and Agriculture Organization: <http://www.fao.org/news/factfile/Ff9604-e.htm>, Jan. 6, 1999)
6. **FAO factfile: Landings by fishing area** (Food and Agriculture Organization: <http://www.fao.org/news/factfile/ff9803-e.htm>, Aug. 6, 1999)
7. **FAO Fisheries Department: Recent trends in global fishery production** (Food and Agriculture Organization: <http://www.fao.org/fi/trends/catch/catch.asp>)
8. **FAO factfile: World catch of bottom-dwelling open-sea (demersal) fish 1950-1995** (Food and Agriculture Organization: <http://www.fao.org/news/factfile/FF9707-E.HTM>, Aug. 6, 1999)
9. **Figure 1: World fish supply, catch, and aquaculture, 1950-96** (FAO *FISHSTAT: Fisheries Statistics Yearbook*, 1997)
10. **Various global marine fisheries showing declines greater than 65 percent, between peak year of production and 1996** (Worldwatch Institute data based on FAO, *FISHSTAT: Fisheries Statistics Yearbook*, 1998)
11. **Top ten fish producers, by catch and share of world total, 1996** (FAO, *State of World Fisheries and Aquaculture*, Rome, 1997)
12. **Table 3: Top 10 fish exporters, by value, 1970-1995** (FAO *Fishery Statistics Yearbook*, Commodities, vols. 45 and 81, Rome, 1978 and 1997. Consumer price index numbers used for 1970: 0.247; 1995: 0.971)
13. **Table 1: Fish imports and exports, by world, developing and industrial countries, 1970-95** (FAO *Fishery Statistics Yearbook*, Commodities, vols. 45 and 81, Rome, 1978 and 1997)
14. **Promoting sustainable fisheries** (Anne Platt McGinn, *State of the World 1998*)
15. **How bountiful are ocean fisheries?** (Brian J. Rothschild, <http://www.gcrio.org/CONSEQUENCES/winter96/oceanfish.html>)
16. **III. Fish consumption and aquatic ecosystems** (WRI, *Critical Consumption Trends and Implications: Degrading Earth's Ecosystems*, <http://www.igc.org/wri/critcons/fish.pdf>, Aug. 6, 1999)
17. **The world's imperiled fish** (Carl Safina, *Scientific American*, Nov. 1995)
18. **Renewing the world's fisheries** (Carl Safina, *People and the Planet*, v7 n2 p10-13, 1998)
19. **Net losses: Fishing decimating oceans 'unlimited' bounty** (Anne Swardson, *The Washington Post*, Aug. 14, 1994)
20. **Overharvesting devastates fish population worldwide** (Anne Swardson, *The Washington Post*, Aug. 14, 1994)
21. **Technology in the capture fisheries** (David N. MacLennan, from FAO Fisheries Department Kyoto conference outcome and papers presented, <http://www.fao.org/fi/agreem/kyoto/H6F.asp>)
22. **New Zealand v. the toothfish pirates** (*The Economist*, Feb. 13, 1999)
23. **Global environmental trends: Diminishing returns: World fisheries under pressure** (WRI, *World Resources 1998-99*, p195-196)
24. **FAO Fisheries Department: Recent trends in global fishery production** (Richard Grainger, <http://www.fao.org/WAICENT/FAOINFO/FISHERY/trends/catch/catch.asp>, Jul. 6, 1999)
25. **FAO Fisheries Department: Review of the state of world fishery resources: Marine fisheries** (Marine Resources Services, *FAO Fisheries Circular No. 920*, FIRM/C920, <http://www.fao.org/docrep/003/w4248e/w4248e00.htm>, Sep. 6, 1999)
26. **World review of fisheries and aquaculture** (FAO, *The State of World Fisheries and Aquaculture (Sofia) 1996*, <http://www.fao.org/WAICENT/FAOINFO/FISHERY/publ/sofia/sofiaie.asp>, May 5, 1999)

27. **Part 1: World review of fisheries and aquaculture** (FAO, *The State of World Fisheries and Aquaculture (Sofia) 1998*, <http://www.fao.org/docrep/w9900e/w9900e02.htm>, May 5, 1999)
28. **Part 5: Fisheries activities of country groupings** (FAO, *The State of World Fisheries and Aquaculture (Sofia) 1998*, <http://www.fao.org/docrep/w9900e/w9900e06.htm>, May 5, 1999)
29. **Plots of regional fishery characteristics** (FAO Fisheries Department <http://www.fao.org/WAICENT/FAOINFO/FISHERY/fifacts/PLOTS/>, Aug. 6, 1999)
30. **Commercial Whaling** (Seaweb: <http://www.seaweb.org/background/book/whaling.html>)
31. **Declining survival probability threatens the North Atlantic right whale** (Hal Caswell, Masami Fujiwara, and Solange Brault, *Proceedings of the National Academy of Science*, v96 p3308-3313, Mar. 1999)
32. **Troubled waters** (Deborah Cramer, *The Atlantic Monthly*, Jun. 1995)
33. **Over fishing disrupts entire ecosystem** (Nigil Williams, *Science*, v279 n5352 p809)
34. **Fishing down the marine food web** (Danial Pauly, Villy Christensen, Johanne Dalsgaard, Rainer Froese and Francisco Torres Jr., *Science*, v279 n5352 p860)
35. **Drastic declines weaken Chesapeake's rich fishery** (D'Vera Cohn, *The Washington Post*, Aug. 14, 1994)
36. **The bycatch problem** (National Audubon Society, *Indiscriminate Slaughter at Sea*, <http://www.audubon.org/campaign/lo/ow/iss.html>, Jul. 6, 1999)
37. **Bycatch management and the economics of discarding** (S. Pascoe, FAO Fisheries Department, *FAO Technical Paper No. 370*, Rome, 1997, <http://www.fao.org/fi/publ/abstract/t370f.asp>, Jan. 6, 1999)
38. **Science**, v282 n5388 p391, Oct. 16, 1998.
39. **Shrimp cocktail: recipe for disaster** (National Resource Defense Council, *Oceans and Marine Life at NRDC*, <http://www.nrdc.org/wildlife/fish/fshrimp.asp>, Feb. 6, 1999)
40. **Oceans at risk** (Michael Weber, *Popular Science*, v246 n5 p85, May 1995)
41. **Extinction on the high seas** (David Malakoff, *Science*, v277 n5325 p486)
42. **Cleaning up the seas** (Bruce McKay and Kieran Mulvaney, *People and the Planet*, v7 n2, 1998)
43. **Global nitrogen overload problem grows critical** (Anne Simon Moffat, *Science*, v279 n5353 p988)
44. **Oil in water** (Marguerite Holloway, *Scientific American*, v280 n8 p38, Mar. 1999)
45. **The management of fisheries and marine ecosystems** (Louis W. Botsford, Juan Carlos Castilla, and Charles H. Peterson, *Science*, v277 n5325 p509)
46. **Farming fish: the aquaculture boom** (*Global Environmental Trends in World Resources 1998-99*, p158)
47. **Part V: Aquatic resources** (*25 Years of Improvement*, <http://www.worldbank.org/html/cgiar/25years/aqua.html>, Jun. 8, 1999)
48. **Marine Aquaculture** (Seaweb, <http://www.seaweb.org/background/book/aquaculture.html>, Aug. 6, 1999)
49. **Review of world aquaculture** (FAO Fisheries Department, *FAO Fisheries Circular No. 886*, FIRI/C886 (Rev.1) Rome, 1997, <http://www.fao.org/>)
50. **Study questions aquaculture benefits** (Michael Kahn, *Journal of Commerce*, Nov. 2, 1998)
51. **Nature's subsidies to shrimp and salmon farming** (Rosamond L. Naylor, Rebecca J. Golburg, Harold Monney, Malcolm Beveridge, Jason Clay, Carl Folke, Nils Kautsky, Jane Lubchenco, Jurgenne Primavera and Merly Williams, *Science*, v282, Oct. 30, 1998)
52. **Review of the state of world fishery resources: Inland fisheries** (Inland Water Resources and Aquaculture Services, *FAO Fisheries Circular No. 942*, Rome, 1999, <ftp://ftp.fao.org/fi/document/circular/all-16a.pdf>, Aug. 6, 1999)
53. **Inland fisheries are under increasing threat from environmental degradation** (FAO, Mar. 24, 1999, [http://www.fao.org/waicent/ois/press\\_ne/presseng/1999/pren9916.htm](http://www.fao.org/waicent/ois/press_ne/presseng/1999/pren9916.htm))

## Section II: Fisheries and human population

54. **Marine fisheries, population and consumption: Science and policy issues** (Lisa Speer, 1995, [password protected] <http://www.aaas.org/international/psd/fisheries/SPEER.htm>)
55. **Catching the Limit: Population and Decline of Fisheries** (Population Action International, 1995).

56. **Tropical marine fisheries and the future of coral reefs: A brief review with emphasis on Southeast Asia** (J.W. McManus, *Coral Reefs*, v16S p121, 1997)
57. **Coasts in crisis** (Don Hinrichsen, *Issues in Science and Technology*, v12 p39, Summer 1996)
58. **Death by suffocation in the Gulf of Mexico** (David Malakoff, *Science*, v281 n5374 p190)
59. **Loaves and fishes** (*The Economist*, Mar. 21, 1998)
60. **In India, a battle for survival** (Molly Moore, *The Washington Post*, Aug.14, 1994)
61. **American or Canadian? Whose salmon is it, anyway?** (Charles Trueheart, *The Washington Post*, Aug.14, 1994)
62. **Salmon counting takes a high-tech turn** (Steven Perarlstein, *The Washington Post*, Mar. 4, 1999)
63. **Estimating the value of in-season estimates of abundance of sockeye salmon (*Oncorhynchus nerka*)** (Michael R. Link and Randall M. Peterman, *Canadian Journal of Fisheries and Aquatic Sciences*, Jun. 1998)
64. **US and Canada Agree on a plan to restrict catches of endangered salmon** (Sam Howe Verhovek, *The New York Times*, Jun. 4, 1999)
65. **US-Canada salmon deal aims to conserve stocks** (Edward Alden, *The Financial Times* (London), Jun. 7, 1999)
66. **Assessing excess fishing capacity at world-wide level** (FAO Fisheries Department, <http://www.fao.org/fishery/NEWS/ASSESS/CAPAsF.htm>, Jan. 6, 1999)
67. **Reversal of the burden of proof in fisheries management**

- (Paul K. Dayton, *Science*, v279 n5352 p821)
68. **Net loss: Fish, jobs, and the marine environment** (Peter Weber, *Worldwatch Paper* 120, Jul. 1994)
69. **Rocking the boat: Conserving fisheries and protecting jobs** (Anne Platt McGinn, *Worldwatch Paper* 142, Jul. 1998)
70. **Just when you thought it was safe** (*The Economist*, Nov. 16, 1996)
71. **Oceans and the Law of the Sea: Overview** (Division for Ocean Affairs and the Law of the Sea, <http://www.un.org/Depts/los/losconv1.htm>, Jul. 6 1999)
72. **Table showing the current status of the United Nations Convention on the Law of the Sea and of the agreement relating to the implementation of part XI of the Convention** (Division for Ocean Affairs and the Law of the Sea, <http://www.un.org/Depts/los/los94st.htm>, Jul. 6 1999)
73. **On the high seas: The law of the jungle** (Jessica Mathews, *The Washington Post*, Apr. 6, 1995)
74. **No more catch as catch can** (*The Washington Post*, Aug. 7, 1995)
75. **A modest step to save the fish** (*The New York Times*, Aug. 8, 1995)
76. **US still at sea on key treaty** (Sean Connaughton, *Journal of Commerce*, Oct. 2, 1998)
77. **Governments support new international commitments to reduce over fishing and over-capacity** (FAO, Mar. 11, 1999, [http://www.fao.org/waicent/ois/press\\_ne/presseng/1999/press9911.htm](http://www.fao.org/waicent/ois/press_ne/presseng/1999/press9911.htm), Jan. 6, 1999)
78. **Lifting the veil on perverse subsidies** (Norman Myers, *Nature*, v392 p327, 1998)
79. **The politics of over fishing** (Simon Fairlie, Mike Hagler, and Brian O'Riordan, *The Ecologist*, v25 p46, Mar./Apr., May/June., 1995)
80. **Creating incentives to curb over fishing** (Rodney M. Fujita, D. Douglas Hopkins, and W.R. Zach Willey, *Forum for Applied Research and Public Policy*, v11 p29, Summer 1996).
81. **Victoria's not-so-secret ruin** (Mark Jerome Walters, *Audubon*, v96 n1 p14, Jan. 1994).
82. **Galapagos: Too many people** (*The Economist*, May 10, 1997)
83. **Twilight of the cod** (Robert Kunzig, *Discover*, v16 p44, Apr. 1995)
84. **Contribution to food fish supplies in review of the state of world aquaculture** (A.G.J. Tacon, *FAO Fisheries Circular No. 886*, Rome, 1997, <http://www.fao.org/docrep/003/w7499e/w7499e17.htm>, Jan. 6, 1999)
85. **International trade in review of the state of world aquaculture** (A. Lem and Z.H. Shehadeh, *FAO Fisheries Circular No. 886*, Rome, 1997, <http://www.fao.org/docrep/003/w7499e/w7499e04.htm>, Jan. 6, 1999)
86. **Aquaculture in Farming Salmon: A Briefing Book** (Michael L. Weber, Seaweb, <http://www.seaweb.org/campaigns/sac/aquacul.html>, Aug. 6, 1999)
87. **Forward in Farming Salmon: A Briefing Book** (Michael L. Weber, Seaweb, <http://www.seaweb.org/campaigns/sac/aquacul.html>, Aug. 6, 1999)
88. **Impacts of Salmon Farming in Farming Salmon: A Briefing Book** (Michael L. Weber, Seaweb, <http://www.seaweb.org/campaigns/sac/aquacul.html>, Aug. 6, 1999)
89. **Shrimp farming: Going swimmingly** (*The Economist*, Feb. 21, 1998)
- Section III: The future of fisheries**
90. **Part 4: Outlook: Expected trends in supply and demand in the state of world fisheries and aquaculture 1998** (FAO, <http://www.fao.org/docrep/w9900e/w9900e05.htm>, Jan. 6, 1999)
91. **Part 2: Selected issues facing fishers and aquaculturists in the state of world fisheries and aquaculture 1998** (FAO, <http://www.fao.org/docrep/w9900e/w9900e05.htm>, Jan. 6, 1999)
92. **13. Water and fisheries** (WRI, *World Resources 1996-97*, Marine Fishing Trends, [http://www.wri.org/wri/wr-96-97/wa\\_txt3.html](http://www.wri.org/wri/wr-96-97/wa_txt3.html), Feb. 6, 1999)
93. **Protecting fishing resources** (RT: Resources Fisheries, SD Dimensions, Posted Jun. 3, 1996, <http://www.fao.org/WAICENT/faoinfo/sustdev/Rtdirect/Rtre0008.htm>, Aug. 6, 1999)
94. **United Nations must strengthen protection of straddling and highly migratory fish** (Lisa Speer, *Fisheries*, v19 n12, Dec. 1994)
95. **Recent international agreements and the precautionary approach: New direction for fisheries management science** (Laura J. Richards and Jean-Jacques Maguire, *Canadian Journal of Fisheries and Aquatic Sciences*, v55 n6, Jun. 1998)
96. **'No-take' zones spark fisheries debate** (Karen F. Schmidt, *Science*, v277 n5325 p489)
97. **Equivalence in yield from marine reserves and traditional fisheries management** (Alan Hastings and Louis W. Botsford, *Science*, v284 n5419 p1537)
98. **FAO: Future of fish for food depends on better management of oceans** (FAO, [http://www.fao.org/waicent/ois/press\\_ne/presseng/1998/pren9831.htm](http://www.fao.org/waicent/ois/press_ne/presseng/1998/pren9831.htm))
99. **The deep green sea** (*The Economist*, May 23, 1998)
100. **Principles and criteria for sustaining fishing** (Marine Stewardship Council, Apr. 1, 1998, <http://www.msc.org/cgi-bin/library/artic...2&area=1&id=891420599&html=template.html>, Jul. 6, 1999)
101. **Principles and criteria for sustaining fishing: Airlie House draft** (Marine Stewardship Council, Issue 1, Oct. 1998)
102. **Blue revolution** (Anne Platt McGinn, *World Watch*, v11 n2, Mar./Apr., 1998)
103. **1.3 Issues and challenges in review of the state of world aquaculture issues** (Z.H. Shehadeh, and M. Pedini, <http://www.fao.org/docrep/003/w7499e/w7499e24.htm>, Jan. 6, 1999)
104. **2.4 Environment and sustainability in review of the state of world aquaculture issues** (U. Barg and M.J. Phillips, <http://www.fao.org/docrep/003/w7499e/w7499e14.htm>, Jan. 6, 1999)
105. **Sustainable aquaculture in agriculture technology notes**

(Rural Development Department, The World Bank, <http://wbln0018.worldbank.org/essd/kb.nsf/0316e416c9e80790852566a60065f4c1/33de56a4527f24c38525671a0053c32f?OpenDocument>)

106. ***The Future in Farming Salmon: A Briefing Book***

(Michael L. Weber, <http://www.seaweb.org/campaigns/sac/future.html>)

107. **GESAMP: Integration of aquaculture into coastal management**

(FAO Fisheries Department, <http://www.fao.org/waicent/faoinfo/fishery/meetings/gesamp/wg31cm.asp>, Jan. 6, 1999)

108. **A precautionary approach for the introduction of new species in aquaculture**

(FAO Fisheries Department, <http://www.fao.org/fi/news/prec aut/sard.asp>)

109. **Eco-farming in Fiji** (Hal Kane, *World Watch*, v10 p28, Jul./Aug., 1997)
